

Distribution Arrangements For Fontus Health

Fontus Health Ltd wrote to all pharmacies in March 2015 explaining that we were changing the way we distribute our products to pharmacies, dispensing doctors and hospitals in the UK.

On April 1st 2015 we reduced the number of full line wholesalers that we distribute via, whilst still maintaining a standard wholesale model.

Our two selected partners are Alliance Healthcare and Phoenix Healthcare and so the products listed in the table below are only available from these two wholesalers.

Both partners have national coverage and extensive experience in the pharmaceutical supply chain. Alliance Healthcare and Phoenix Healthcare have also stated that there will be **no low account surcharge** applied to any orders for Fontus products. Listed in the table below are details of the current product ranges that this reduced wholesale model applies to, along with the relevant PIP codes and prices.

Fontus Health Product List:

PIP Code	Description	Active ingredient	Pack Size	Trade Price
392-6037	Luventa [®] XL 8MG Capsules	Galantamine Prolonged Release	28	£25.42
392-6029	Luventa [®] XL 16MG Capsules	Galantamine Prolonged Release	28	£31.80
